Lok Sabha Admitted Unstarred Question No. 1212 due for 10.02.2026 Regarding "Surge in respiratory medicine sales and public health impact of air".

Sl.No.	Question	Answer
(a)	Whether government has taken note or reports indicating a record surge in sales of respiratory medicines, crossing Rs.1,950 Crore in December 2025, with sustained year on year increases during high-pollution months	At LHMC & Associated SSKH there's no surge in procurement of respiratory medicines were recorded.
(b)	Whether government acknowledges that such sharp increases in sales in anti-asthma, chronic obstructive pulmonary disease COPD and allergy medications reflect a worsening air-pollution linked public health burden rather than mere seasonal illness	At LHMC & SSKH there's no such increase is observed.
(c)	Whether any official study or epidemiological assessment has been conducted to establish a direct correlation between air pollution levels and rising respiratory morbidity and deaths and	At LHMC & SSKH there's no such studies have been conducted by PSM department to see **direct co-relation** some of the pub med indexed journal have published such arties which have established the correlation. However, 2 Thesis have ben conducted to assess the respiratory morbidities in various areas of- Delhi. But no direct correlation was studied among these. Several national and regional epidemiological studies in India have established a direct correlation between air pollution and rising respiratory morbidities and deaths. While international bodies like The Lancer and the Health Effects Institute have published extensive data, Indian-led research by the Indian Council of Medical Research ICMR and the Public Health Foundation of India PHFI has confirmed these findings on a national scale. **Key National Studies and Findings: -** • **India State-Level Disease Burden Initiative (2018): -** This landmark study by ICMR, PHFI, and IHME was the first comprehensive national assessment of air pollutions health impact. It attributed 1.24 million deaths in India (1 in 8 total deaths) to air pollution in 2017. • **Lancet Countdown 2025 Report: -** Recent data indicated that fossil fuel-driven air pollution PM2.5 was responsible for over 1.72 million annual deaths in India in 2022 a 38% increase since 2010. • **NFHS-5 GIANS Model Integration 2024: -** A study combining National Family Health Survey NFHS-5 data with pollution models found that districts exceeding the national standard of 40 ug/m^3 had significantly higher mortality risks across all age groups, including neonatal and adult deaths. • **CHAIR-India Multi-City Study 2024: -** Conducted across 10 major cities, this study found that approximately 33,000 per year are linked to short-term PM2.5 exposure exceeding WHO Guidelines.
(d)	The number of pollution related respiratory illness and deaths reported annually during the last five years state-wise?	At LHMC & SSKH there's no such death cases registered due to air pollution in the last five years.

</table>
Projected demand and allocated budget for the financial year 2026-27 in r/o LHMC & SSKH is as under:
(Fig. in Crore)
<table>
<tr><th>Head/Section</th><th>Projected demand for 26-27</th><th>Allocated B.E 2026-27</th></tr>
<tr><td>Revenue</td><td>856.77</td><td>703.40</td></tr>
<tr><td>Capital</td><td>171.60</td><td>92.50</td></tr>
<tr><td>Total</td><td>1028.37</td><td>795.90</td></tr>
</table>
Detailed allocation of BE 2026-27 of Rs.795.90 Crore is attached as Annexure - B.
The details of projects/schemes for capital outlay for the financial year 2026-27 is attached as Annexure-C1, C2 and C3.</td></tr>
</table>

12/2/26

(c)	The BE 2024-25 amounting to Rs. 101 crore marked for Capital outlay was reduced to Rs. 51.50 crore at RE stage. Again, the actual expenditure under the Capital head for FY 2024-25 comes to further reduced amount of Rs. 31.02 crore. What are the reasons for this variation and significant reduction in funds earmarked for Capital outlay? Which projects/schemes have been affected due to this reduction in capital expenditure?	The Proposals could not be concluded due to consideration of retendering for various procurement proposals (due to single responsive bid and shifting to next financial year on priority basis). These proposals were again considered in next financial year
(d)	Provide the details of post-wise and cadre-wise sanctioned strength vis-a-vis in-position strength (the strength of regular employees, Junior Residents, Senior Residents and contractual employees may be shown separately) and vacant positions as on date. What are the steps taken/that can be further taken to fill up the vacant posts?	Requisite information is attached as Annexure-D.
