

## Workshop on “Infection Control in Clinical Biochemistry Lab”

### Conducted by Department of Biochemistry, LHMC.

As part of the Swachhata Pakhwada April 2019, under Kayakalp program, Department of Biochemistry organized a training and workshop on “**Infection Control in Clinical Biochemistry lab**”. All doctors, technicians and staff of Biochemistry department (SSKH lab and KSCH lab) participated in the programme. A total of 45 participants took part in the workshop cum training programme. The programme took place over two days, 1st and 2nd of April 2019, in Department of Biochemistry.

All participants took **Swachhta Pledge** facilitated by Dr Anju Jain, Director Professor and HOD of Department of Biochemistry, LHMC and Associated hospitals.

Interactive **sessions** on Biomedical Waste Management, Standard Precautions, Spill Management, Hospital Cleaning, Hand Hygiene, Post exposure prophylaxis and Hepatitis B vaccination were conducted by Dr Anju Jain, Dr Smita Tripathi and Dr Rajeev Goyal. Study material, folders, writing pads, pens were distributed to the participants.

**Pre and post tests** were also given and all participants showed remarkable improvement in their post-test, with many of them answering all questions correctly. The top three scorers from technical and MTS group were given **prizes**.

BMW management posters, Hand Hygiene posters and Hepatitis B Vaccination posters were handed over to the Senior Lab Technicians to be put in the Labs (SSKH & KSCH).

Dr Asha Hans (AMS I/C Kayakalp) and Dr V.K Sharma (AMS I/C Stores) felicitated safai karamcharis (sanitation workers): Mr Vijay, Mr Kashi and Mr Kirpal for their good work and contribution in keeping the department clean.

This was followed by lunch to all participants of the workshop
