FOREWORD

It is a matter of great pride and privilege for me to present the Annual Report of Lady Hardinge Medical College & Associated Hospitals for the year 2018.

Lady Hardinge Medical College is one of the oldest Medical Colleges of India, and has diligently maintained high standards in medical education and care, particularly for the underserved & under privileged sections even after more than a century.

The comprehensive redevelopment plan of LHMC was restarted in the year 2018, and will provide the much needed push to the dreams of the staff & students. Paediatric Nephrology Division and 3T MRI have been added. This Institute has been identified as a National Healthcare Provider for the PMJAY scheme of the Government and infrastructure for the same has been established. In the coming year, new academic programmes like MD (PMR), DM (Paediatric Anaesthesia), DM (Paediatric Neurology) & DM (Paediatric Critical Care) are in the pipeline. I see a bright future for this iconic institution.

I would like to thank the staff, students and all the well-wishers of the Institute on this occasion for their contributions in achieving the targets, as a fine symbol of the college motto 'Per Ardua ad Astra'.

Dr. Rajiv Garg
Director

DIRECTOR'S SPEECH FOR THE ANNUAL DAY

Honourable Dr. V. K. Paul-ji, distinguished dignitaries on the dias, honoured guests, esteemed faculty, dear students and your parents:

It is indeed a privilege and a great honour to be welcoming you all and to be sharing this sacred moment with a person of the stature and esteem both within and outside of our medical profession; Dr. V. K. Paul. Dr. Paul is involved with the foundational processes that are transforming healthcare and medical education of India today as an esteemed member of Niti Ayog also called the National Institution for Transforming India. He is also the Chairman, Board of Governors in supersession of Medical Council of India.

The journey of Lady Hardinge Medical College began in the year 1912 with a mission to empower the women of this nation using medical education as a means of empowerment. Today has come just that moment of reflection when we take a look back at our long and glorious heritage and achievements, and then cast a long look forwards to give shape to those dreams and aspirations embedded in our legacy.

Since we met at the last convocation, a lot has happened and we have come a long way having made rapid strides in many spheres:

I am happy to inform you that the Comprehensive Redevelopment Plan for Lady Hardinge Medical College, which had got stalled for the last four years for reasons beyond our control has restarted and its implementation has begun in full earnest. We hope to see it up and functioning very soon. This single project has unleashed the power to comprehensively transform our institutional capacity by creating a new platform of: Quality patient care and combine it with state of art teaching and research infrastructure in times to come.

Also I am proud of the fact that together we have already worked hard and attained a few modest achievements over the last quarter:

1. Sir, as one of the proponents of Ayushman Bharat, you will be happy to know that in keeping with our Honourable Prime Minister Shri Narendra Modi's ambitious Pradhan Mantri Jan Arogya Yojna, Lady Hardinge Medical College has plunged into this enormous movement in great earnest and has started admitting and treating patients under it.
2. In order to create newer paradigms for delivering holistic and integrated health care combining quality assurance with safety, we have developed a Thalassemia Transition Care model on a collaborative basis between the Department of Medicine and Paediatrics, in order to smoothen the delivery of thalassemia care to adolescents, maturing into adulthood.

3. The Center for Adolescent Health in Kalawati Saran Children's Hospital, LHMC has recently been recognized by the World Health Organization headquarters in Geneva as a WHO Collaborating Center for Training and Research in Adolescent Health. This center, which is the only WHO Collaborating Center of its kind, outside an autonomous medical institution in India is contributing to the National Adolescent Health Program and will further contribute in training and research in this field in South East Asia.
4. In keeping with our commitment to enlarging and deepening medical education provided from our platform, we are about to initiate MD course in Physical and Rehabilitation Medicine. The MCI inspection process for which is already through.
5. Furthering our institution's commitment towards prevention of the burden of non-communicable diseases, we have launched a multi-pronged initiative focused on Cancer Prevention.
 - a. Preventive Awareness Program for mitigation of tobacco related disease burden: Awareness building activities have been organized under the aegis of the Department of Dentistry and Maxillofacial Surgery and the Department of Chest Diseases along with the Student Leadership Mission which is supported by the Medical Education Unit of Lady Hardinge Medical College. These have been targeted at the patients and general public visiting the hospital and public places like India International Trade Fair etc. with emphasis on Tobacco Cessation and Prevention of Oral and Lung Cancer.
 - b. An Oncology CME pertaining to Recent advances in Cancer Prevention and Management was organized. This was a multi-disciplinary event involving departments of Surgery, Medicine, Gynaecology, Paediatrics among others, held in partnership with Rajiv Gandhi Cancer Institute.
6. The National Nutritional Rehabilitation and Training Center to look after the needs of children and their mothers', has been functioning at the Kalawati Saran Children's Hospital with the support of UNICEF.
7. A Genetic Diagnostic Center named NIDAN Kendra is coming at Lady Hardinge Medical College for conducting prenatal molecular diagnosis and Cyto-genetics. This will go a long way in Prenatal Diagnosis, Prevention and Treatment of Genetic Disorders.
8. Deptt of Microbiology, has been approved for establishment of Virus Research & Development laboratory by Department of Health Research, Min of H&FW, Govt of India, to act as an advanced centre for training of health professionals and develop infrastructure and expertise for timely identification of increasing number of viral threats with potential for outbreaks and significant morbidity.
9. We re-dedicated ourselves to the Kayakalp Mission promoting Swacchata Abhyan at our institute by carrying out various activities and have chalked out a three month time table for further promoting the noble cause in our campus.
10. Last but not the least, we take the structural safety of our 103 year old heritage building very seriously. Under the auspices of the School of Planning and Architecture, a structural safety audit was undertaken and the remedial measures suggested by them are being initiated.

Having come thus far, today as we have gathered here to mark this solemn occasion, I on behalf of all the students, faculty and staff of Lady Hardinge Medical College and Associated Hospitals, assure you of our continued commitment and dedication to take this institution to even greater heights of excellence and glory in the fields of medical education, patient care and research.

And once again my dear undergraduate and Post graduate students, I wish you all the very best in times to come as you are about to cross this vital threshold in your career and begin a new phase in your life marked by fresh horizons of rising hope and aspirations.

Jai Hind

Programmes Run by MEU

- 1. Teacher Training Programme:** As per the MCI Regulations on Graduate Medical Education, 1997, MCI made it mandatory for all medical colleges to establish Medical Education Units (MEUs) in order to improve the quality of medical training by training the teachers and enabling faculty members to avail modern education technology for teaching. The MEU, LHMC regularly holds Teacher Training Programmes for Medical Faculty of our institute with external observers from our Regional Centre, Maulana Azad Medical College, New Delhi.

2. Medical Humanities: We have three programmes running under this:

- a. **Faculty and Peer Mentorship Programmes:** This programme has been running in our institute successfully for the last six years. This programme envisions to empower the 1st Year MBBS students to take charge and responsibility of their lives with confidence as they step into the realm of adulthood in college. Under this the first year MBBS students are grouped with peer mentors from amongst the 2nd year MBBS students under the guidance of Faculty Mentors from Preclinical Branches. We have an excellent ratio of Faculty mentor: peer mentor: mentee of 1: 3-4: 7-8.
- b. **Volunteer Faculty Mentors:** Dr. Jayshree Bhattacharya, Dr. Anita Tuli, Dr. Shashi Raheja, Dr. Anju Jain, Dr. Sohinder Kaur, Dr. Sunita Mondal, Dr. Ritu Singh, Dr. Sneha Agarwal, Dr. Kulwinder Kaur, Dr. Sujata Gautam, Dr. Madhulika Monga, Dr. Smita Tripathi, Dr. Ekta, Dr. Preeti, Dr. Mary Vibha, Dr. Sheetal Joshi, Dr. Meenakshi, Dr. Anjoo Yadav, Dr. Shweta, Dr. Pooja Dr. Ranjeeta, Dr. Shilpa.
- c. **Student Leadership programmes:** The Medical Education Unit started STUDENT LEADERSHIP MISSION in 2017 and it was continued in its second year in 2018; with the vision to develop a holistic, altruistic student leadership for dealing with problems of 21st century Life and living: with focus on issues of mental, physical and spiritual health. The purpose being to hone leadership and communication skills as well as team spirit in students from all semesters on a volunteer basis. The focus is on development of values of altruism, service over self, voluntarism and resilience. Medical Education Unit Faculty and other Volunteer faculty act as facilitators for this programme.
- d. **Art and Literature programmes:** Under this we conduct various programmes like photography, dramatics, dance etc. for the students under guidance by the faculty.
