# FOREWORD

**Dr. RAJIV GARG**

Professor of Excellence, former DG (1 JAN 2020 – 12 AUG 2020)  
& Director LHMC (2017 – 2019) and Associated Hospitals

It gives me immense pleasure to write a "Foreword" for the Annual Report 2019 of Lady Hardinge Medical College.

This Year has been an important landmark for this 103-Year old Institution. Lady Hardinge Medical College has contributed immensely to the Health care development of the Country by participating in the Pradhan Mantri Jan Arogya Yojana [PMJAY] in a big way. Several new equipments like MRI(3-T), CO<sub>2</sub> Laser, Yag Laser, OCT etc. have been installed in the Institute. Provision of Cytogenetic studies by the opening of NIDAN KENDRA under the Department of Bio-Technology, Government of India has been made. The Swachh Bharat Abhiyan has been activated further in the Institution by providing automated cleaning machines, atomized steam machines and Anti-microbial coating in the ICUs and OTs etc.

The Campus has been made friendly for persons with disabilities and a Project "Happiness" was started in Kalawati Saran Children Hospital for comprehensive well-being of the ailing children. A structural audit of the ageing building of the Institution was completed and renovation of some buildings has been done. Additional parking for faculty

and residents has been provided. The Institution has been made more environmental friendly by provisions of Rain Water Harvesting and LED Lighting and energy efficient air-conditioners. Several sports and cultural events for the employees and the officials were conducted in this year.

Overall, this Institute has gained by the restarting of the "Comprehensive Re-development Plan" of the Institution, which was struck for the last six-years. Once, this Re-development plan has been completed, the Institution will get the much required upgradation.

I wish to compliment all the members of the faculty, residents, students and officials for completion of a great and momentous year.

**Rajiv Garg**

Professor of Excellence Dte. GHS &  
LHMC and Associated Hospitals

# DIRECTOR'S SPEECH FOR THE ANNUAL DAY

**Dr. N N MATHUR**

MS DNB FAMS

Director (w.e.f. 9-1-2020) & Additional DGHS &

Director Professor (ENT)

Lady Hardinge Medical College & Smt Sucheta Kriplani and  
Kalawati Saran Children's Hospital

Lady Hardinge Medical College (LHMC) had the fortune of having Mahatma Gandhi himself coming and addressing College students with the students at the same time also spinning Khadi in the Convocation Hall during Satyagraha movement. 'Satyagraha' - that is holding on to the 'Truth', is thus ingrained in this College ethos.

LHMC has made a name for itself in delivering quality education, providing opportunities for clinical and basic research and maintaining good standards of patient care. This achievement has been brought about by the joint efforts of the dedicated students, efficient faculty and ramping up of support infrastructure and facilities.

LHMC upto 2020 has produced 8255 MBBS, 495 Diploma, 2475 MS/MD and 40 MCh/DM graduates. Also 335 BSc Nursing and 1778 Diploma General Nursing students have graduated from here till date. This is a significant contribution to health services and nation building.

Our college remained a preferred destination in the country for admission through NEET UG into MBBS course and through NEET PG into many postgraduate courses. This institution continued to march ahead in 2019 calendar year and beyond in its quest to remain as an institution of repute in the field of medicine.

I was posted to this institute for the second time - this time as the Director on 9th January 2020. The highest priority was accorded to speed up the work on Comprehensive Redevelopment Project Phase I through regular meetings and rounds, thereby solving issues pertaining to HEFA loan and construction activity. The leftover part of Comprehensive Redevelopment Project Phase I - comprising of construction of Oncology

block, Academic block, Accident and Emergency (Surgical wing), IPD (Medical wing) & OPD block, STP and ETPs and Electric substation was fast tracked except in the period of lockdown due to COVID when the construction work got halted.

It was yet another year in which our students excelled in academics and extracurricular activities. **Kavyanjali** stood First in 1st, 2nd & 3rd MBBS Part-I & II combined and also in 3rd MBBS Part-II. **Shruti Agarwal** stood first in 3rd MBBS Part-I. **Shruti Garg** stood first 1st in 2nd MBBS, and **Dhanshree Bakhru** stood first 1st in 1st MBBS.

The MBBS students performed well in the university examinations with a pass percentage of 96 percent in 1st Professional, 96.6% in 2nd, 99.5% in 3rd (Part-I) and 98.5% in the 3rd Professional (Part-II), while the pass percentage of the Postgraduate (MD/MS) and Postdoctoral students (DM/MCh) in the university examination was 100%. This is commendable. Subsequently many of our postgraduates went on to complete senior residency either in LHMC Hospitals or other reputed institutes like AIIMS, MAMC, and Safdarjung Hospital.

Last part of the academic year (March 2020) and beyond, got primarily devoted to erecting an infrastructure to fight COVID 19 – be it establishment of Virology lab for Coronavirus, sampling booths, flu clinics, Red zone in SSKH and KSCH for critically ill COVID cases, overnight converting upcoming yet incomplete Oncology block into COVID block, producing orange zones for suspect cases in the hospital and making suitable facilities for their surgeries, separating out green zones and not discontinuing those Non Covid services at any time, establishing Covid Care Centre services at YMCA for 100 patients, renting hotel rooms around for doctors, nurses, and other Health care workers on COVID duties, engaging DTC buses for staff to commute especially during lock down period, providing appropriate PPEs to all in COVID and hospital duties, and increasing oxygen beds and ventilatory beds in hospital.

Accident and Emergency department was revamped with faculty and resident doctors drawn on rotation from General Medicine, General Surgery, Orthopaedics, Pulmonary medicine, Paediatrics (at KSCH), and Anaesthesia departments as permitted under MCI rules till such time that an exclusive A&E qualified and trained faculty is available to be recruited.

Our institute is enriched with the presence of highly motivated and professional faculty who are the flag bearers of the institute's reputation. With the improved infrastructure, this institute will now be the preferred choice for them to seek placement and posting. In addition to the regular intensive teaching program to which we give utmost importance, the faculty took lead in organizing several important academic events at international, national and state levels. In addition, the role of both Resident Doctors Association and Students Association was very constructive and highly commendable during the period.

Many faculty members were appointed as experts in the interviews of faculty posts by organisations including AIIMS, UPSC, CSIR, AFMC, ACMS, JIPMER, Govt of NCT and other Public Service Commissions. Most of the faculty was appointed as examiner for UG, PG, Post-doctoral (DM, MCh, MD, MS, DNB, FNB, PhD, MBBS,) and fellowship examinations across the nation by various institutions including AIIMS. Several faculty members were appointed as Assessors by MCI, NBE and NABL. Some faculty members were on Board of research studies of different institutions in the country.

Number of research articles were published in various journals and chapters contributed in several books. Rigorous research was carried out in the form of post graduate thesis and various extramural projects funded by agencies like WHO, DBT, ICMR etc.

Individual achievements of the faculty and milestones achieved by departments were commendable and have been included in the detailed report. In addition, our faculty was very active in healthcare promotion, especially during COVID period, by participating in TV shows like Total Health, Swastha Kisan, Doctors speak and Aaj Savere on Doordarshan and also on several Phone-In Radio programs. Besides, many health-related articles were published by them in National dailies and magazines.

## **We have a plan and vision for the institute which is as follows:**

### **Vision 2020-21**

1. To pursue with the proposals under submission for starting new courses like BSc MLT and MD PMR, MChPaed ENT, MChPaed Ophthal. and MChPaed Ortho., MD Accident & Emergency, MD Radiotherapy, MD Respiratory & Chest, MD Immunohaematology & Blood Bank. To increase in PG seats mainly in subjects like Anaesthesia and other clinical subjects wherever possible.
2. To make Oncology Block fully operational.
3. To make Academic Block (Lecture theatres/Canteen/Faculty rooms/Seminar halls/Labs etc.) fully functional.
4. To make all 3 wings of New Hospital Block under construction fully operational.
5. To start work on establishment of High Level Clinical Skills Lab in the Academic Block.
6. Emphasis on establishment of Modular Operation Theatres and Intensive Care Units in upcoming Hospital and to make them operational.
7. To have paradigm shift in our emphasis in clinical care by prioritising resources for quality Emergency Care Services including Trauma Care services and Intensive care in upcoming A&E block.
8. To develop A&E department as per recommendations of NMC.
9. To extend Paediatric Surgery Emergency services after 4pm running from KSCH premises itself and to make Eye/ENT OT functional in KSCH as well and to recruit much needed and deficient OT technicians and Anaesthesia resident doctors for this purpose. To put all efforts in making KSCH the institute of National Excellence by providing services in ALL sub specialties of Paediatrics as is the case in other known International institutes like Great Ormond St. Hospital for Sick Children London and Cincinnati Children's Hospital.
10. To give preference in developing facilities in Common Areas utilized by larger number of Doctors/Nurses/Workers/Patients.
11. To start E Office and HMIS & LIS.
12. To have integrated Operation and Maintenance Committee which has members from Faculty, Engineering services of CPWD/Development and maintenance agencies.
13. To increase Green cover in the campus by planting more trees and indoor plants in college/hostels.
14. To take cleanliness in the hospital and college to a next level by expediting all maintenance works and introducing an 'Aesthetic group' consisting of selected doctors and nurses.
15. To work towards establishing Heart Command and Dialysis facility.
16. To start Counselling & Wellness Centre (CWC) in the Academic block for the benefit of students with a support from Psychiatry department.
17. To introduce an App and a provision in Website for Online Payment of Fees.
18. To work towards getting NMC recognitions for all courses and making them current.

For achieving goals set out in our vision document we will require collaborative effort of several individuals and organisations and support from Ministry of Health & Family Welfare and Directorate General Health Services.

I thank the MoHFW and Dte GHS for their constant support and guidance during the year. I am confident that with their continued support LHMC as an institution will continue to impart best medical education and training to the medical students and provide quality health care to millions of countrymen and women.

## **KSCH Administration**

Kalawati Saran Children's Hospital is a 395 bedded institution dedicated exclusively to children upto 18 years. of age. In order to run the hospital seamlessly and to manage the day to day requirements for the patients' health care in the hospital, there is a robust system of administration and management in the hospital comprising of three offices of Additional Medical Superintendent under the direct supervision of the Director of Lady Hardinge Medical College and Associated Hospitals.

### **Additional Medical Superintendents**

- a. Dr. Basab Gupta
- b. Dr. Sunita Khambra Singh
- c. Dr. R.K. Khanna

During the last one year (Jan 2019-Dec 2019) following landmark activities have been achieved.

1. **Recruitment:** Many of the posts lying vacant for quite some time have been filled up during this year through vigorous recruitment exercises round the year. Altogether 75 new appointments were made and processing of recruitment was completed for many more posts including the newly created posts under Paediatric Nephrology.
2. **Departmental Promotion:** During the year 2019, as many as 53 personnel were promoted as per their due thereby streamlining the existing cadre structure. Most benefitted are the nursing personnel, the cadre which is the backbone of health care.
3. **Swachhata Action Plan:** Till 2019, the plan was operational jointly with SSKH under the guidance of the committee headed by one Additional MS from SSKH. From 2019, KSCH was allotted separate fund independent of SSKH. This had provided a huge opportunity to improve the physical ambience of the hospital as well as the expansion of facilities in real sense. During the last year, following exercises have been undertaken to have a control over infection rate in the hospital, minimize the cost on surface disinfectants, improve the ambience of the toilets within the hospital premises and also improve the look of the hospital area.
  - ❖ Anti-microbial coatings have been carried out in the HDU and ICCU areas in the paediatric medicine, neonatology and paediatric surgery departments.
  - ❖ Atomized steam machines for decontamination of the surface, disinfectant generation system for in-house production of surface disinfectants and automated hand washing machines have been installed in various departments and units of the hospital.
  - ❖ Flush-me-not system has been initiated in general urinals to improve the ambience and the infection rate. It has also helped in our initiatives to conserve water.
  - ❖ Portable toilets in strategic positions have been installed to maintain hygiene and for the convenience of the users.
  - ❖ Automated cleaning equipments have been procured for better sanitation services.
  - ❖ Other routine cleanliness activities round the year
4. **Project Happiness:** Under Swachhata Action Plan-2019, an innovative program has been developed in order to create an ambience where the children and their attendants as well as the service providers feel less stressed and a sense of happiness prevail in the atmosphere. The concept of Swachhata has got multiple dimensions. Mere physical cleanliness shall not create a healthy and productive nation unless the very ideology of cleanliness is ingrained into the day to day life of all the stakeholders. Analogous to the definition of Health, Swachhata has got elements of physical, social, psychological or spiritual and mental facets which need to be attended to achieve the desired goal. The ultimate goal of cleanliness in a hospital context is to provide not only a clean environment but also to endow its stakeholders a healthy and happy productive life which is devoid of illness. Illness is the most important cause of unhappiness in the individual sufferer. It is now scientifically proved that unhappy mind begets more diseases and various disabilities. Morbidity if not mortality is directly influenced by the state of mind of the beneficiaries. In order to break this cycle of disease-unhappiness-disease in the beneficiaries, "Project happiness" has been initiated in the hospital premises. Following innovative ideas have been implemented with very positive results among all the stakeholders including the service providers.
  - ❖ Story Telling Sessions on moral issues and happy and innocent subjects.
  - ❖ Medical Counselling - to generate some smile and laughter amongst the otherwise hallowed stakeholders.
  - ❖ Ward based library facilities- to create a habit of reading among the children which is unfortunately rapidly disappearing.

- ❖ Paintings and art works conveying moral lessons with cartoon and fables over the walls of the hospitals so that children may relate to the stories and their morals and change their attitudes to life. Their character building is thereby supported with some strong moral backings.

All these initiatives have got tremendous positive feedback from all the stakeholders and there is a change in the air in a positive sense.

5. **Outsourcing of Laundry Service:** The mandates of Kayakalp to have clean and hygienic linens on the patients' beds with proper color coding uniformly across the indoors of the hospital have been materialized through outsourcing the service. Now the look of the wards and units have improved and streamlined. The erstwhile roadblocks experienced through in house laundry system have been removed. A skeleton service however has been kept functional as a backup facility.
6. **Patient Waiting Area:** A new patient attendant waiting area has been inaugurated by Dr. Harsh Vardhan, Hon'ble Minister of Health & Family Welfare and Sh. Ashwini Kumar Choubey, Minister of State, Ministry of Health & Family Welfare in the premises of Kalawati Saran Children's hospital on 28th August 2019.

## Special Achievement of the Staff

- ❖ Dr. Ravinder Kaur has been awarded: "Bhujwala award of excellence for work in Microbiology" by Delhi Chapter IAMM.
- ❖ Dr. Ravinder Kaur Felicitated By: Ministry of Health & Family Welfare on the occasion of Doctor's day on 1st July, 2019, ILBS, New Delhi for raising awareness on Hepatitis on 22nd Hepatitis Day on 4th December 2019.
- ❖ New initiatives in microbiology deptt:
  1. Setting up of virology diagnostic and research facility (VRDL) in Department of Microbiology in LHMC in collaboration with DHR/ICMR. For- identification and diagnosis of different viral diseases at serological and molecular level & Diagnose suspected outbreaks of viral diseases like H1N1 etc.
  2. Setting up of advanced mycology diagnostic and research facility (MRDL) in Department of Microbiology in LHMC. ICMR technical team has already visited and approved the feasibility of establishing advanced mycology diagnostic and research facility (MRDL) in Deptt of Microbiology in LHMC.
  3. Starting of VIDAS TEST—Automated ELISA tests for HEV, HAV Serum Procalcitonin.
  4. MIGIT & Gene-expert for rapid culture and susceptibility testing of Mycobacterium tuberculosis and detection of Rifampicin resistance.
  5. Molecular lab services being initiated for rapid identification of pathogens which are difficult to grow/ unable to grow at an early stage.

## Representation on Expert Bodies/Committees

### Dr. Ravinder Kaur

1. Focal Point & Coordinator Antimicrobial Resistance Surveillance Programme of NCDC & Min. of H&FW.
2. Member WHO, IAMM Network for Surveillance of Antimicrobial Resistance-Delhi (WINSAR-D).
3. Member Subcommittee on Minimum standards of Medical Diagnostic laboratory in Min. of H&FW.
4. Member National Technical Consultation for Development of State Action Plans on Climate Change, Anti-Microbial Resistance and Patient Safety.
5. National Faculty DTH-NPTEL-Medical Recording Meeting of National Coordinators and Experts in NPTEL Medical education programme under HRD ministry.
6. Member Selection Board for the faculty interview of Professor and Assistant Professor, Microbiology at ESIC Medical College & Hospital, North DMC Medical College & Baba Saheb Ambedkar Medical College & Hospital, Govt. of NCT of Delhi & Faculty of Dentistry, Jamia Millia Islamia.
7. Expert reviewer in J of Chemotherapy, IJMR.

#### **Dr. V S Randhawa**

1. Technical expert to NACO, AIIMS New Delhi, AIIMS Rishikesh, Pt B.D. Sharma University of Health Sciences, Panjab university, I.P University, ILBS New Delhi and MAMC New Delhi.

#### **Dr. Manoj B Jais**

1. Member Secretary of infection prevention committee.
2. Member Secretary of patient safety committee.
3. Nodal officer and member secretary of BMWM Committee.

#### **Dr. Sonal Saxena**

1. Joint Secretary, Indian Association of Medical Microbiology, 2019-21.
2. Secretary, Indian Association of Medical Microbiology, Delhi Chapter 2017-2019.
3. Technical and Clinical Expert, Scientific Advisory Group (SAG), Biotechnology Industry Research Assistance Council (BIRAC) Public Sector Undertaking of DBT, 2018.

## Programmes Run by MEU

1. **Teacher Training Programme:** The MEU, LHMC regularly holds Teacher Training Programmes for Medical Faculty of our Institute in order to improve the quality of medical training by training the faculty members and enabling them to avail modern education technology for teaching.
2. **Medical Humanities:** Three programmes are running under this:
  - a. **Faculty and Peer Mentorship Programmes:** Running successfully for the last seven years, This programme envisions empowering the 1st Year MBBS students to take charge and responsibility of their lives with confidence as they step into the realm of adulthood. Under this, the first year MBBS students are grouped with peer mentors from amongst the 2nd year MBBS students under the guidance of Faculty Mentors. We have an excellent ratio of Faculty mentor: peer mentor: mentee of 1: 3-4: 8-10.  
  
**Volunteer Faculty Mentors:** Dr. Jayshree Bhattacharya, Dr. Anita Tuli, Dr. Shashi Raheja, Dr. Anju Jain, Dr. Sohinder Kaur, Dr. Sunita Mondal, Dr. Ritu Singh, Dr. Sneha Agarwal, Dr. Kulwinder Kaur, Dr. Sujata Gautam, Dr. Anita Pawar, Dr. Smita Tripathi, Dr. Ekta, Dr. Sheetal Joshi, Dr. Meenakshi, Dr. Parijat Gagoi, Dr. Mary Vibha, Dr. Anjoo Yadav, Dr. Preeti, Dr. Pooja, Dr. Ranjeeta, Dr. Shilpa, Dr. Urvashi, Dr. Shweta, Dr. Mamta, Dr. Nazish Rasheed, Dr. Ananya Ray Laskar.
  - b. **Student Leadership Programmes:** "Student Leadership Mission" was started in 2017 and was continued for the third year running with the vision to develop a holistic, altruistic student leadership for dealing with problems of 21st century Life and living with focus on issues of mental, physical and spiritual health. The purpose is to hone leadership and communication skills as well as team spirit in students on a volunteer basis. Medical Education Unit Faculty and other volunteer faculty act as facilitators for this programme.
  - c. **Art and Literature Programmes:** Various programmes like photography, dramatics, dance etc. are conducted for the students under guidance by the faculty.
