

Mission/ Vision:

1. We look forward to have a Dermatology Comprehensive Care Centre to provide state of the art care to all existing dermatological problems.
2. We aim to expand our reach by enhancing and increasing our teleconsultations, in keeping with the needs of COVID-19 pandemic.
3. We aim to start digitalizing all our inpatient data for better monitoring and follow up.
4. We have started digitalizing all our office records.
5. We aim to acquire better diagnostic aids like reflectance confocal microscope, hair analysis system.
6. We aim to acquire high end treatment facilities like multiutility phototherapy unit, excimer laser and pulse dye laser for better patient management.
7. We aim to bring in faculty, specializing in fields like pediatric dermatology, dermatosurgery, genodermatosis, cutaneous malignancies, psychodermatology and aesthetic dermatology.
8. We aim to start hair transplantation.
9. We aim to start doing aesthetic procedures like botox, fillers and threads for various medical indications.
10. We aim to further improve on academic performance by conducting more CMEs and webinars.
