

Patient advocacy by the department includes:

1. Showing sensitivity to fellow human beings.
2. To protect access and to promote advancements in medical imaging services with the motto “right scan at the right time”.
3. To work for right diagnosis or therapy at right time, resulting in better health outcomes at lower costs.
4. Informing patients and supporting their autonomy.
5. To safeguard and support safety for the patients and their families.
6. To guide patients in radiation protection issues.
